

SAHIRU IMADITH HENNADIGE

Full-Stack Developer · MERN Stack · Cloud & DevOps Enthusiast

Bristol, UK · sahiruimadith200507@gmail.com · +94 76 616 3944 · linkedin.com/in/sxhiru0725 · github.com/sxhiru0725 · sxhiru0725.github.io

PROFESSIONAL SUMMARY

Full-stack developer with a BSc (Hons) Computer Science and practical over two years of experience building academic, personal, and freelance web applications using React, JavaScript (ES6+), Node.js, and REST APIs. Comfortable across the entire stack - from translating Figma designs into clean, accessible interfaces to architecting RESTful APIs and managing MongoDB and MySQL databases. Experienced in leading development decisions, running code reviews, and collaborating within cross-functional engineering teams. I write maintainable code, care about the user experience, and take ownership of projects end to end. Currently expanding into TypeScript, Next.js, and Tailwind CSS.

EDUCATION

BSc (Hons) Computer Science *Feb 2024 – Feb 2027 (Expected)*

University of the West of England (UWE Bristol), UK

Modules: Software Engineering · Algorithms & Data Structures · System Architecture · Databases · Web Technologies

Foundation of Science & Engineering Technology *Feb 2023 – Dec 2023*

NCHS Colombo, Sri Lanka · Results: 3 High Distinctions, 5 Distinctions, 1 Pass

TECHNICAL SKILLS

Frontend: React.js · JavaScript (ES6+) · HTML5 · CSS3 · Responsive Design · Figma · Adobe XD

Backend: Node.js · Express.js · REST APIs · Python · Java · C · C++ · C#/.NET

Databases: MongoDB · MySQL · SQLite · Schema Design · Query Optimisation

Cloud & DevOps: Microsoft Azure (Certified) · Google Cloud Platform (Learning) · Docker (Learning) · Git · GitHub

Exploring: TypeScript · Next.js · Tailwind CSS · GraphQL · Jest/Cypress · AWS

Soft Skills: Agile/Scrum · Code Reviews · Technical Documentation · Team Collaboration · Problem Solving

PROJECTS

Saved - Photography Portfolio Platform | MERN Stack, React, Node.js, Express.js, MongoDB, JWT, Multer, Axios

- Developed a full stack web application that allows photographers to create, manage, and showcase portfolio content through a responsive user interface.
- Implemented JWT authentication, protected routes, Express middleware, structured REST API endpoints, image upload features, and MongoDB backed data handling.

Build - Online Study Rooms App | React, Vite, TypeScript, Node.js, Express.js, MongoDB, Socket.io

- Created a collaborative study platform with authentication, study rooms, task management, Pomodoro timers, analytics pages, notifications, and admin management features.
- Structured the project as a monorepo with separate client and server applications, reusable frontend components, protected dashboard routes, and deployment configuration.

PublishMe - Business Report Generator | Python, Flask, HTML, CSS, JavaScript, SQL

- Built a Flask web application that helps users enter business information, generate structured report content, view reports, and export reports as PDFs.
- Implemented authentication routes, dashboard pages, business input forms, SQL database structure, and frontend pages with separate CSS and JavaScript files.

ExpiryGuard - Stock Expiry Management App | Python, SQLite, Desktop Application

- Developed a desktop application for small retail businesses to manage product expiry dates, stock batches, discounts, and waste tracking.
- Added separate admin and staff access to support different user responsibilities and everyday stock management tasks.

C Language Game Suite | C, Raylib, Event Driven Game Logic

- Built multiple small games including Tic Tac Toe, XOX, and a snake style game using C and Raylib.
- Implemented keyboard input handling, scoring, collision detection, health systems, and basic game loop logic.

Arduino IoT and Embedded Systems Portfolio | C/C++, Arduino, Sensors, LCD, Motor Control

- Developed embedded projects including a joystick controlled fan, ultrasonic distance sensor with LCD, and remote controlled car.
- Programmed microcontroller logic for real time sensor readings, hardware interaction, and basic motor control.

PROFESSIONAL EXPERIENCE

Full-Stack Developer - Freelance (Remote) Jul 2024 – Present

- Delivered 10+ production-ready web applications for diverse clients using React, Node.js, Express, MongoDB, and MySQL - from Figma/Adobe XD wireframes to deployment.
- Architected RESTful API layers with authentication, authorisation middleware, and data validation; maintained clean, well-documented codebases for long-term maintainability.
- Optimised MongoDB and MySQL database schemas, significantly improving query performance on data-heavy client dashboards.
- Managed full project lifecycle independently - requirements gathering, design, implementation, testing, and client handover - consistently meeting deadlines.

Graphic Designer - Freelance (Remote) Feb 2020 – Present

- Designed web layouts, digital assets, and marketing collateral with a strong focus on UX/UI principles; iterated rapidly on client feedback to deliver polished, brand-aligned outputs.

CERTIFICATIONS & MEMBERSHIPS

SLASSCOM Academy (Feb 2026): Project Management · Leadership · Hypothesis-Based Problem Solving · Navigate Global Business Ecosystem

Microsoft Azure Administrator (2024): Cloud Services · Deployment · Security - Alison

Agile Project Management (2025): Agile · Scrum · Kanban · MVP - HP LIFE

Angular Fundamentals (2025): SoloLearn

GDG Sri Lanka Member: Google Developer Group, Feb 2026 - Present

ADDITIONAL

Languages: English (Professional Working Proficiency) · Sinhala (Native)

Interests: Open-source contribution · 3D Modelling (Blender) · Embedded Systems · IoT
